Subject: Class of 2023 Day-Zero Testing Sign-up

Hello Members of the Class of 2023,

Thank you so much for all of your work to ensure you can safely join us, on 08/17. Earlier today, I met with an incredibly dedicated UVM team, who is working to ensure you have your zero-day testing ready and waiting for you, next Friday. They are working around the clock to meet the state's health mandates associated with re-opening for in-person curriculum, this fall. It's truly an impressive endeavor, and I know I am grateful for all of this work you and our amazing staff are doing to keep our campus and community safe.

As many of you discovered, the Zero-day testing app is not up and running yet for you to secure a time. Thus, in an effort to limit bottle-necks and any potential wait-times, we've set up [a sign-up for your Zero-day testing clinic, in the UVM Davis Center, on Friday, 08/14, 8am – 5pm](#). Please **sign-up no later than noon, on Thursday, 08/13**.

If **your quarantine plan and/or adherence to COVID-19 guidelines prevent you from being able to attend the scheduled Friday clinic**, please let us know by [signing up for the provided slot at the end of the sign-up titled "Unable to Complete Day-Zero Test on Friday, 08/14"](#) to alert us to this exceptional circumstance.

Please **bring your UVM Student ID (CATCard) with you** to your Zero-Day testing session. Your IDs will be activated upon completing your zero-day test.

We are also aware of the **5-day-prior** Vault test delivery challenges/delays. Please plan to take your test as soon as it arrives (regardless of timing), and if you are traveling and the test does not arrive at your indicated shipping address in time for your planned departure, please **do not change your travel plans**; email our [COVID Test Team](#) to alert them of the issue and we wish you safe travels back to us.

Planning is already underway for your **day-seven test** as well. The clinic is scheduled for 08/21, 3-5pm. I will release the sign-up for your 7-day test on 8/17.

Please let me know if you have any questions. We can't wait welcome you back!

Kind regards and so much appreciation,
Kiersten

Subject: Additional Information re: UVM Return to Campus Protocols

Hello Students,

Thank you so much for maintaining close communication with us. More importantly, thank you so much for your dedication to supporting UVM procedures to ensure the safety of our campus and greater Burlington Community.

We also appreciate the opportunity to provide additional information and support:

- Medical students are the first in returning to campus and thus to run the UVM COVID-19 testing process; OMSE is working closely with UVM Strong Fall 2020 teams in communicating feedback and challenges with the system as our students work to meet deadlines/requirements. We are all trying our best with what we are given, which invites patience and compassion with everyone working hard to ensure students return to in-person education safely while also protecting the local Burlington Community.
- As long as students do the following, they can return to campus for in-person instruction:
 - Follow/adhere to state travel guidelines and requirements (both any relevant home-state guidelines and the [Vermont State Travel requirements](#) (rules within your control and provided in advance of start dates), which includes the negative COVID-19 test results within the 14 day quarantine, and/or completing the 14-day quarantine.
 - Complete the [COVID-19 Safety Training and Green & Gold Promise](#) no later than the day prior to stepping back onto campus – takes no more than 20 minutes. Training is successfully completed with a 100% on the final quiz.
 - Are NOT experiencing any COVID-19 symptoms:
 - Fever 100.4F or over
 - Cough
 - Shortness of breath or difficulty breathing
 - Chills
 - Repeated shaking with chills
 - Muscle pain
 - Headache

- Sore throat
- New loss of taste or smell
- Vomiting and diarrhea
- Do what they can to meet the UVM-specific COVID-19 testing procedures/requirements (whatever is in the realm of your control – i.e. requesting the 24hr delivery test to arrive within five days, attending day-zero testing clinic if in place when you arrive). **If/when a hiccup/issue is discovered, students should report this to COVIDTest@uvm.edu**
 - You should take the mailed Vault home-test as soon as it arrives, as it is mandatory, even if the timing does not work for you to get the results before you arrive on campus
 - Currently, the COVID-19 Safety Training and Vault COVID-19 testing systems are connected to CATCard access as part of an impressive automated monitoring system to hold all UVM students accountable to the testing protocol. We are working diligently to protect our Medical Students from errors as these new systems become fully operational. Please [let us know ASAP](#) should any CATcard changes occur. We are available to address any issues arising from any automated-system errors/misunderstandings.

Please let us know if you have any questions, or if we can be of assistance.

Best regards,

The Medical Student Services Team
