

Vermont Academic Detailing Program

What is Academic Detailing?

- One-hour interactive sessions geared to practitioners who prescribe medications
- The latest evidence-based prescriber support and education for managing common but challenging primary care conditions
- One FREE hour of CME is offered for each session
- An objective, unbiased overview of what the evidence from studies shows about various drugs, and non-drug therapies used to treat a medical condition

2021 Session Topics

Advanced Management of Opioids

(Controlled substance credit)

Cannabinoids

Fluoride Varnish in Primary Care

Management of COPD

Management of Fibromyalgia

Management of Type 2 Diabetes

Primary Prevention of Cardiovascular Disease:

Management of Lipids

Primary Prevention of Cardiovascular Disease:

Management of Blood Pressure

Where?

We invite you to join our academic detailers for virtual academic detailing sessions and in person sessions (scheduled on a case-by-case basis, contingent upon current COVID-19 protocols).

Sign Up Genius

We have a new way to easily sign up for academic detailing sessions online!

www.signupgenius.com/go/vtad

This is a great way to catch up on sessions you missed or allow you to attend at a more convenient time. The virtual sessions are the same format as our usual sessions.

Each session is one-to-one with an academic detailer, allowing for personalization of the session to your interests and time frame. Can't attend for the whole hour, or have specific questions about a topic you want to discuss? The academic detailer will tailor the session to your needs.

Each session comes with CME and you pick the topic.

For more information or to schedule a session:
