Support STEM Education. Middle school science fair needs judges

Have you ever thought to yourself: " I would love to help ensure the future of the pure and applied sciences by helping middle school science students develop critical thinking skills, but I want to do it on my own time!"

Well here is your chance! The Mater Christi School is holding a digital Science Fair this year, and we are in need of Judges to remotely evaluate student work. Each student has created a 10-12 slide Google Slides presentation outlining their project. All you need to do is email Mark Pendergrass [mpendergrass@materchristischool.net](mailto:mpendergrass@materchristischool.net) and he can send you as few or as many projects as you would like. Simply review the science or engineering projects and rate them on several criteria using a google form. All projects can be reviewed and evaluated between February 22 and 26. Please Feel Free to contact Mark Pendergrass [mpendergrass@materchristischool.net](mailto:mpendergrass@materchristischool.net) if you are interested or simply curious about the process.
